

LIQUIDITY & EXCHANGE LISTINGS PLAN

1. LISTING STRATEGY

The LMGX token will follow a tiered listing strategy, ensuring gradual expansion to reputable exchanges while maintaining strong liquidity provisions.

2. TARGETED EXCHANGES

- Phase 1: Listing on internal platforms (Crypto LMFx).
- Phase 2: Tier-2 centralized exchanges (CEX) to enhance accessibility.
- Phase 3: Major Tier-1 exchanges to maximize global adoption.
- Phase 4: Integration with decentralized exchanges (DEX) for additional trading options.

3. LIQUIDITY PROVISION & MARKET MAKING

- Liquidity Pools: Initial liquidity reserves will be deployed to ensure smooth market operations.
- Market Making Partnerships: Agreements with leading liquidity providers to stabilize price fluctuations and ensure efficient order book depth.
- Token Utility: LMGX will provide trading fee discounts, liquidity staking, and other incentives for early adopters.

4. REGULATORY CONSIDERATIONS

- Compliance with listing requirements for major exchanges.
- Adherence to anti-market manipulation laws to ensure ethical trading practices.
